PERFIL PROFESIONAL

Full Stack Software Engineer with a strong focus on React and Node.js ecosystems. Passionate about building scalable, AI-integrated applications with end-to-end ownership. Proficient in TypeScript, Java, and Python, with a proven track record of deploying production-ready solutions and leveraging AI-assisted development to accelerate delivery cycles.

EXPERIENCIA LABORAL

Full Stack Developer (Freelance / Personal Projects)

Independent Projects | 2023 - Present

- Architected and deployed 'El Grano de Oro', a full-stack e-commerce platform using React and Node.js, integrating AI-driven recommendation engines that increased user engagement by 25%.
- Developed a high-performance desktop utility for media management, optimizing data processing workflows and reducing manual synchronization time by 80% for end-users.
- Implemented automated CI/CD pipelines for web deployments, reducing time-to-market for new features from days to minutes using Docker and Vercel.
- Leveraged GitHub Copilot and AI-assisted development tools to increase code generation efficiency by 40% while maintaining high architectural standards.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

B.Sc. in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Frontend:

React, TypeScript, Redux, HTML5, CSS3

Backend:

Node.js, Express.js, Java, Python

Bases de datos:

MySQL, Redis, Elasticsearch

Data & Cloud:

Databricks, Docker, Git, AWS

Languages:

Spanish (Native), English (C1 - Cambridge Certified)

PROYECTOS RELEVANTES

El Grano de Oro

Full-stack e-commerce platform with AI-powered virtual assistant and multi-language support, deployed with React and Node.js.

Music Downloader Pro

Desktop application for automated music library management, featuring QR-based mobile synchronization and optimized data handling.
