PERFIL PROFESIONAL

Fullstack Software Engineer with a strong foundation in building scalable web applications and AI-integrated systems. Proficient in Python, Kotlin, and React, with a focus on high-performance API design and maintainable code. Proven ability to deliver production-ready software in international environments, leveraging C1 English proficiency to collaborate effectively in cross-functional teams.

EXPERIENCIA LABORAL

Fullstack Software Developer (Freelance/Independent)

Self-Employed | 2023 - Present

- Architected and deployed a full-stack e-commerce platform using React and Python, integrating AI-driven recommendation engines that increased user engagement by 25%.
- Developed and maintained RESTful APIs for automated data processing, reducing manual task execution time by 40% through optimized backend logic.
- Collaborated with international clients to define technical requirements, ensuring 100% project delivery alignment with business goals and high code quality standards.
- Implemented CI/CD workflows using Docker, reducing deployment cycles from 2 hours to 15 minutes for production-grade applications.

FORMACIÓN

Higher Technician in Multiplatform Application Development

IES El Majuelo | 2025 - Present

Bachelor in Industrial Technologies Engineering

Universidad de Sevilla | 2022 - Present

HABILIDADES

Languages:

Python, Kotlin, JavaScript, Java, SQL

Frontend:

React, Vue.js, HTML5, CSS3

Backend:

RESTful APIs, Node.js, Spring Boot

Cloud & DevOps:

Docker, Git, Vercel, CI/CD Pipelines

Tools:

AI Integration (Gemini API), PostgreSQL, Oracle

PROYECTOS RELEVANTES

El Grano de Oro (E-commerce)

Full-stack platform featuring an AI-powered virtual assistant and personalized recommendation engine, supporting 6 languages with 99.9% uptime.

Music Downloader Pro

Desktop application built with Kotlin/Java for automated media management, featuring cross-device synchronization via QR codes.
